Johnny getting ready to net a big bass for his good buddy and TRACKER co-designer Charlie Campbell, in 1978.

John A. and Johnny Morris

Bass Pro Shops® introduced the original BASS TRACKER® with high hopes and an idea. More than forty years ago, back in 1978, Johnny and his father John A. Morris came up with the idea to produce the first completely-outfitted fishing boat package in the world.

As with the selection of every item featured in the Bass Pro Shops catalog, the most important consideration was quality. When Bass Pro Shops decided to market a boat, we visited boat shows and builders across the nation to develop the finest boat possible. While keeping anglers and their needs in mind, it took more than two years to develop the first BASS TRACKER. Simultaneously, Bass Pro Shops was the first major builder to build a trailer to match one specific boat. Johnny and his dad pioneered the “total package” concept, selecting or developing the best components. Only when the BASS TRACKER package—boat, trailer, outboard, fishfinder and trolling motor—was in line with Bass Pro Shops’ commitment to quality, innovation and performance, did we concentrate on achieving the lowest possible selling price.

At Bass Pro Shops, we don’t cut corners to achieve lower prices—we use volume to help reduce costs. Our Mercury® outboards are a good example. We buy them just like we buy tackle boxes—by the semi-truck load, delivered directly from the manufacturer’s plant to our plant.

Today, the company operates nine state-of-the-art plants right here in the Ozarks. By being the manufacturer and the seller, we are able to maintain superior quality standards while reducing costs. In effect, you’re buying factory-direct from the world’s largest manufacturer of boats. By eliminating middle-man expense and by streamlining operations, we deliver our boats directly to anglers for less money than competitors charge their dealers.

TRACKER® boats are designed with one purpose to be dependable fishing machines. When it comes to catching fish, you won’t find a boat that moves better, is as stable, or handles with as much finesse as a TRACKER. We build our hulls to the heaviest aluminum standards in the industry—nowhere will you find a stronger, better balanced hull. And our craftsmen are the most qualified professionals in the industry. As a result, the structural integrity of the TRACKER hull is unrivaled.

In addition to strength, we build performance into our boats. When you buy a TRACKER, you’re buying more than just a boat—you’re buying a complete fishing machine. The boat, motor, trailer, fishfinder, trolling motor and every other component has undergone exhaustive testing—both in the lab and on the water—before becoming official equipment on the world’s #1-selling bass boat.

Finally, outboards are rigged to rigid specifications by our Mercury-trained personnel so that boat and motor work in harmony to deliver unmatched fishing performance and trouble-free maintenance.

Innovation, quality and dedication to excellence: that’s the BASS TRACKER story.
YOUR HEADQUARTERS FOR ALL THINGS BOATING

Johnny Morris founded Bass Pro Shops® in 1972 to provide anglers a one-stop shop filled with great deals on the gear they need. In 1978, he brought that legacy to the boating industry with the BASS TRACKER®, the industry’s first boat, motor and trailer package. Bass Pro Shops is recognized as the world’s premier outdoor retailer and WHITE RIVER MARINE GROUP® (WRMG), the parent company to TRACKER®, is the world’s largest boat builder by volume. In addition to TRACKER, WRMG crafts an array of fishing and recreational boats, aluminum and fiberglass, right here in America’s Heartland.

Want to see your new TRACKER in person? Find them at hundreds of quality dealers around the world, including more than 130 Bass Pro Shops and Cabela’s Boating Centers and hundreds of independent dealers across North America. Many of those dealerships, including all of the Boating Centers, have a service center with factory-trained and –certified technicians, so you’re assured to have a full-service center ready to keep you on the water.

Every location also follows our NO HAGGLE NO HASSLE® pricing policy where every model is priced at after-negotiation levels that are consistent across all media. This also means you’ll find the same great prices at our dealerships as you will across our brochures, catalogs, ads and trackerboats.com. Wherever and whenever you shop, you’ll get the industry’s best value—all without having to bargain for the right price.

3 CONVENIENT WAYS TO SHOP

IN PERSON
You’ll find TRACKER boats at hundreds of quality dealers around the world, including more than 100 Bass Pro Shops and Cabela’s locations and hundreds of independent dealers across North America.

Visit TRACKERBOATS.COM to find more photos, videos, comprehensive boat features and specifications and complete pricing details. You can even apply for credit and order a boat!
THE TRACKER PROMISE

THE BEST FACTORY WARRANTY IN ALUMINUM BOATS

TRACKER® uses world-class manufacturing, materials and components to deliver the best quality possible. As an industry leader in quality construction, we offer the TRACKER PROMISE—the strongest warranty in aluminum boats.

Visit TRACKERBOATS.COM/WARRANTY for coverage details.

- Standard on all-welded TRACKER boats
- 5-year bow-to-stern coverage (non-prorated)
- Limited lifetime structural & deck warranty (non-prorated)
- 3-year warranty on powder coat finish adhesion
- 3-year warranty on factory-installed trolling motor & fishfinder
- Provisions for transfer to a second owner

RECOGNIZED FOR EXCELLENCE IN CUSTOMER SATISFACTION

For six consecutive years, TRACKER® boats have been recognized for excellence in customer satisfaction in the aluminum outboard boat category by the National Marine Manufacturers Association® (NMMA®).

This means that thousands of feedback surveys returned by actual purchasers of TRACKER boats reported average satisfaction ratings above 90 points on a scale to 100.

With a TRACKER, you get steadfast dedication to quality that you can see in the fit and finish, feel in the smooth ride and count on for a lifetime. From the skill of our master welders to our exclusive DIAMOND COAT™ finish, care is taken at every step in the process to ensure the finest, longest-lasting boat at the very best price.

The CSI award is a tribute to our skilled and dedicated boat builders and to the thousands of people in our company and dealer network who support our customers. By working hard and smart, they deliver the quality and value that have made TRACKER the best-selling fishing boats in America.

In 2019, two Salvagnini L3 lasers went online at the TRACKER® aluminum plant in Lebanon, Missouri. These multi-million-dollar precision tools use fiber-optic-carried high-power-density laser beams to fabricate aluminum parts. The automated system loads, cuts, and dispenses aluminum sheet stock with greater efficiency than ever. The addition of the lasers to TRACKER manufacturing is a significant step into the future for White River Marine Group. It enhances our Lean manufacturing principles that have helped make us the industry leader, contributing to continuous quality improvement and substantially decreasing the environmental footprint of the facility. The benefits to the environment are light-years ahead of plasma cutters, and the benefit to the customer are just as significant. A massive increase in manufacturing efficiency yields dual results—a better boat and significant cost savings. Parts fit more tightly together, making welding the boats easier, and more consistency means increased quality throughout the line. And as cost savings accumulate throughout the boat building process, value increases and you get more boat for the money. At TRACKER, we don’t just talk about improving quality and lowering costs—we take action. The addition of these two machines to our facility represent the largest single investment we’ve ever made in improving the quality of boat production, enhancing fit and finish and allowing us to give you the best boat at the best possible price.

**LASER SPEED AND PRECISION SAVES TIME, IMPROVES QUALITY, AND REDUCES WASTE.**

**ROBOTICALLY-WELDED STRINGER**

This substructure is precisely welded by a programmed robotic arm, resulting in a full-length grid that supports the entire running surface of the boat—absorbing impact and distributing shock throughout the structure for a smoother ride and a more durable boat.

**ROBOTICALLY-WELDED TRANSOM**

The extra-strong box-beam transom is also robotically welded, then welded to the stern. The stringer system is pressed and welded into the boat and the resulting one-piece structure is ready for bulkhead placement.

**ALL-WELDED HULL**

All TRACKER® hulls are 100% welded, with no rivets. The hull surface, now reinforced by the stringer and transom, is further strengthened with a triangular keel support, chine braces and half-round supports. Bulkheads are secured to the hull sides and the aluminum boat structure is ready to be finished with the fuel tank, storage compartments, deck, consoles and seats.
THE TOUGHEST, BEST-LOOKING FINISH IN ALUMINUM BOATS.

First, the fully unitized hull/stringer/transom assembly goes through a five-stage automated wash to remove any obstacles to adhesion. The prepped assembly is then robotically coated with the color powder and a technician coats the places that the wands can’t reach. Next, the electrostatically-coated hull enters the curing oven and the finish becomes bonded on a molecular level to the aluminum surface. Finally, clearcoat is added for a lustrous shine and protection from the sun’s ultraviolet rays. As you can see, DIAMOND COAT™ isn’t the conventional approach—but it’s the best. You’ll understand when you get up close to one of our boats in the showroom. The environment gets a bonus as well. While only 60% of liquid paint adheres to the boat (the rest is released into the atmosphere), over 90% of each pound of powder-coat finish is applied to our boats—and the remainder is reclaimed for later use.

OUR DIAMOND COAT FINISH PROVIDES LASTING BEAUTY

THE TOUGHEST, BEST-LOOKING FINISH IN ALUMINUM BOATS.

DIAMOND COAT FINISH VS. CONVENTIONAL PAINT

- 3x harder & 4x thicker
- 70% longer-lasting shine
- 50% smaller carbon footprint
- 5x stronger adhesion to metal
- 20x longer-lasting color
- 10x more corrosion resistance

HEAD-TURNING BRILLIANCE

TRACKER-EXCLUSIVE DIAMOND COAT FINISH

ENHANCING ALL THAT BEAUTY...

The toughest, most environmentally-friendly finish available in aluminum boats today.

OUR DIAMOND COAT FINISH PROVIDES LASTING BEAUTY
Designed mainly for bass fishing but great for many other species as well, TRACKER® Mod V boats are designed and built to deliver decades of fishing enjoyment. Interior layouts accommodate lots of rods and tackle, plus room to fish for you and your family. Modified V hulls feature a variable deadrise that allows the boat to plane faster and perform better while underway in a variety of water conditions.

** REVOLUTION HULL WITH SMOOTH RIDE GUARANTEE **

TRACKER® PRO TEAM™ Mod V boats are designed with our variable deadrise REVOLUTION™ hull. The 16° angle at the bow transitions to a flatter 10° angle at the transom, allowing the boat to cut through the waves, while providing more stability at rest. Finally, the POWER-TRAC™ set-back transom delivers undisturbed water to the prop for optimized performance both on take-off and at the top end. This allows us to give you our SMOOTH RIDE GUARANTEE™ — if your PRO TEAM doesn’t provide the smoothest ride in an aluminum boat, return it within 30 days for credit toward any TRACKER® of equal or greater value.

** - THE ONLY PERFORMANCE PROMISE IN THE INDUSTRY -**

If your PRO TEAM doesn’t provide the smoothest ride in an aluminum boat, return it within 30 days for credit toward any TRACKER® of equal or greater value.

Out on the big waters of the northern U.S. and Canada that will rattle the teeth out of riveted boats, PRO GUIDE™ and TARGA™ Deep Vs are proven to take whatever big lakes can dish out.

We offer a full range of NORTH OF TOUGH™ Deep V models, from the compact and durable Guide V-16 Laker to the TARGA V-19—our biggest, most fishing- and family-friendly Deep V. And like every all-welded TRACKER®, they’re backed by the TRACKER PROMISE—the best factory warranty in aluminum boats.

Heavy-duty marine-grade aluminum is joined with welded seams for unmatched strength. A 35° angle at the bow cuts through waves and reverse chines deflect water downward for a dry, smooth ride in rough water.
TARGA™ V-19 WT

$35,995

The TARGA V-19 WT (Walk-Thru) is designed to safely and effectively fish big water, whether you're trolling for walleye or casting for smallmouth. A wrap-around walk-thru windshield keeps you protected from the elements and a deep cockpit loaded with fishing features keeps your rods bent and your livewells full.

**STANDARD PACKAGE:**
- Mercury® 150 XL FourStroke & Custom Trailer (plus freight & prep)

**TOUGHNESS COMES STANDARD ON ALL TARGA BOATS:**
- Heavy-duty, 125 all-welded 5052 marine-grade aluminum hulls
- Extra-wide gunnels w/grip panels on top & rod/gear storage inside
- 19-gal. bow and 30-gal. aft aerated, timed, recirculated livewells w/pump-outs
- Aft deck storage for fourteen 3700-series tackle boxes

**ADDITIONAL MOTOR OPTIONS:**
- 200 XL Pro XS® FourStroke $40,700
- 225 XL Pro XS® FourStroke w/DTS $43,945

WE’VE BEEN BUILDING CUSTOM-MATCHED BOAT TRAILERS FOR OVER 40 YEARS.

Every Mod V and Deep V boat comes standard with a great-looking, long-lasting, custom-matched TRACKER® trailer. Unlike some trailers, ours are welded together for maximum strength. Each features our exclusive GALVASHIELD® Impact corrosion and chip protection with a beat-in-three-year corrosion warranty. Plus, each one is designed and built to provide maximum support for your boat and a smooth ride behind your vehicle. Carpeted bunks, load guides, a heavy-duty winch and Super Lube hubs are just a few of the built-in advantages of a TRACKER trailer. And almost all of our trailers come standard with 13” or 14” Silver powder-coated or chrome wheels, matching hub covers and radial tires for even better on-road performance and great-looking longevity.

Every trailer frame features our exclusive 30% thicker GALVASHIELD Impact protection, providing exceptional corrosion and chip resistance and rugged good looks that will stand up to the elements for years to come.

The GALVASHIELD Impact trailer finish is a 5-mil.-thick, matte black, textured powder coat that improves corrosion resistance while adding chip resistance. The steel tubing is galvanized on the outside and inside and sealed with a flexible clearcoat before it arrives at our plant in Ozark, Missouri. The trailer frame and components are put through a 5-stage wash and then thoroughly dried to ensure perfect adhesion to the metal.

For the application of the finish, the trailer components receive an electrostatic charge, which attracts the opposite charge in the powder coat particles. This ensures thorough coverage, uniform thickness and minimal waste, all while having virtually no environmental effect. The GALVASHIELD Impact finish is then heated to its melting point as it bonds securely to the galvanized metal at the molecular level. The result is a harder, longer-lasting and environmentally-friendly finish that protects against both corrosion and chipping.

The all-welded construction of our trailers means there are no bolts to loosen over time, maximizing durability. And each trailer is custom built for each boat model, making the fit as impressive as the construction.

Surge Brakes
Most TRACKER trailers are available with optional drum surge brakes that stop quickly and won’t engage when backing. Check the brake requirements for your state.

Super Lube Hubs
Our exclusive Super Lube hubs make maintenance simple. Just inject grease into the fittings to deliver lubrication to both inner and outer wheel bearings.
VERSATILITY IN YOUR HANDS

Accessories to make every fishing task faster and easier.

The prices in this brochure are listed “plus freight & prep.” Freight charges are the cost of shipping the boat from the factory to the dealer. TRACKER uses zoned freight rates that reflect the costs of shipping boats to each geographic area, or zone, in North America. Prep charges cover the costs the dealer incurs for labor and supplies necessary to complete a pre-delivery inspection and prepare the boat for delivery to the customer. Freight and prep charges are set by the factory and added to the price of boats shown in this brochure and on our websites, based on the dealer location selected by the customer.

CUSTOM-CRAFTED & MATCHED TO YOUR BOAT.

TRACKER® factory-fit boat covers are custom-crafted for each model, ensuring a perfect, protective fit whether you’re trailering your boat to the lake or storing it for the winter. The TRACKER boat covers are designed to protect your boat from the elements for years to come. Our custom Mod V and Deep V covers are crafted of Climashield® Plus, a 7.5 oz., 600-denier, solution-dyed polyester that’s water-resistant and breathable to allow moisture to escape.

The cutting board is easy to clean and isches easily after every use.

Small in size, large in function, a fish scaler makes quick work of cleaning fish so you can focus on finding the best spots.

Lightweight, durable, and long lasting, these covers are designed to protect your boat from the elements for years to come.

The cutting board is easy to clean and isches easily after every use.

Tracking rods are a must when you’re preparing a fish to be filleted. This accessory keeps your rod in place while you work, and makes it easy to retrieve when you’re done.

Rigging down 1 rod for trolling or traveling. Easily adjustable for casting or spinning rods.

Keep pliers, hook-outs, knives, terminal tackle and more within reach anywhere in the boat. Rack is designed for easy installation and removal.

Stand-up convertible top protects your passengers from the elements with windows on both convertible tops. Roomy enough for easy movement in the cockpit. Available for all WT and Combo models.

Not all VERSATRACK® accessories fit all models. Some models are exceptions.

VERSATRACK®-exclusive VERSATRACK® channels permit quick mounting and moving of optional accessories.

Rod holders, tool holders, tackle trays, cutting boards, drink holders—simply tighten or loosen the bolt and wing nut to move your accessories anywhere along the gunnels. See your local TRACKER dealer for availability. Standard on all TRACKER boats, excluding BASS TRACKER® Classic and Topper riveted jons.

BIMINI TOP

Get out of the sun and into the shade of a custom-matched TRACKER Bimini top. In addition to being exceptionally long lasting, these tops are quick to put up and pull down.

STAND-UP CONVERTIBLE TOP

Protect yourself and your passengers from the elements with windows on both convertible tops. Roomy enough for easy movement in the cockpit. Available for all WT and Combo models.

FULL ENCLOSURE

Custom fit for the bow of WT and Combo models, these heavy-duty covers prevent water and spray from overtopping the bow and entering the cockpit.

From the first BASS TRACKER® boat, motor and trailer package in 1978, to the comprehensive lineup of aluminum boat models of 2020, TRACKER has always had one goal: make it as easy as possible for regular people to get on the water and have fun with family and friends. We work hard every day to make this vision a reality, so get out there and catch a whopper!

It’s easy to find your family’s next boat—just visit trackerboats.com to browse models and locate a dealer near you, or call 855.580.0755 to speak to someone at our White River Online Sales.

IT’S MORE THAN A BOAT. IT’S A TRACKER.
